Diane, How do you like Steve's picture?

He took the above picture one evening during a picnic overlooking the village closest to WOLBI. The village is named "So" (cow) "Kil" (path) "Li" (village). **Please pray that every interaction we have there will communicate the love of Christ to our neighbors.** Whether we're taking trash to the recycling center, borrowing chairs for an outdoor wedding from the village community center, visiting cafes, bumping into people while walking, or attending village events, **please pray that we make the most of every opportunity.**

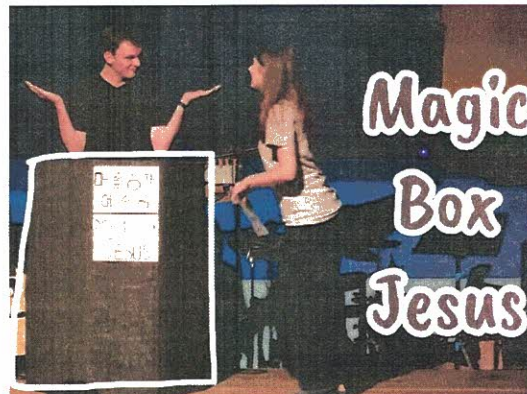

MEET K (WOLBI Jeju Class of 20XX) Here's a recent text from him: "I graduated with an MDIV from seminary, and I'm going to be a missionary to North Korea! I joined an international mission (I can't share the mission's name due to security reasons) and will assist believers there. There are various options—China, Russia, and others. I apologize for not providing more detailed information through this text message." Wow! Praise the Lord!

The Class of 2024 has finished strong! Three will continue their second year in New York; five will intern at WOLBI Jeju; two will intern for a year at a local church on Jeju; and one will serve for a year with our mainland team.

At graduation, David Baek was officially installed as the WOLBI Jeju Assistant Executive Dean. This year, Steve and David will work even more closely together for the future of the ministry.

Pray for wisdom moving forward.

WHAT WAS THE DREAM COME TRUE? I'm glad you asked! It was the International Camp with Japanese campers. Back in the spring of 2020, David Baek planned an international camp in Japan, with Korean campers traveling to Japan and Japanese campers coming to Korea. But then COVID shut everything down. David continued to dream of having an international camp with Japanese and Korean campers. This summer, it finally came to fruition! From August 5-9, staff from WOL Japan and Jeju Japanese Alumni joined Korean and Western staff to host a truly international camp. We also had one participant from Taiwan and six American teens--requiring three translators at each meeting. We praise the Lord for this initiative to help WOL Japan reach Japanese teens in one of the most unreached countries in the world.

A RESOURCE FOR YOU Each season at camp, our staff and students create incredible skits that we didn't want to see go to waste. To preserve and share these creative works, Abby launched a YouTube channel called [Christian Camp Skits \[WOLBI Jeju\]](#). We encourage you to check it out! By liking or subscribing, you can help the channel gain more visibility. Our aim is to provide a valuable resource for Christian camps and youth groups around the world. One skit we particularly recommend is the "[Magic Box Jesus](#)" skit. Give it a look!

1. To God be the glory: 198 campers with 39 salvation decisions and 120 dedications.
2. Interviewing a potential student from China today!
3. 1 of the 7 bathrooms is getting renovated this week!
4. The Rodgers are here and ready to jump into ministry beginning this Thursday!
5. See the graduation picture and explanation above.

1. Please pray for staff training from 9/2 until 9/13.
2. Pray for the arrival of new students on 9/18.
3. Pray for the provision for the final 6 bathrooms to be renovated.
4. Pray for our team as we get organized and clarify responsibilities for the coming year.
